

When WWII Started

Read the catalogue of events.

Then, ask yourself how anyone can take the position that all we have to do is bring our troops home from Iraq, sit back, reset the snooze alarm, go back to sleep, and no one will ever bother us again.

In case you missed it, *World War III began in November 1979...* that alarm has been ringing for years.

US Navy Captain Ouimette is the Executive Officer at Naval Air Station, Pensacola, Florida. Here is a copy of the speech he gave last month. It is an accurate account of why we are in so much trouble today and why this action is so necessary.

AMERICA NEEDS TO WAKE UP!

That's what we think we heard on the 11th of September 2001 (When more than 3,000 Americans were killed) and maybe it was, but I think it should have been "Get Out of Bed!" In fact, I think the alarm clock has been buzzing since 1979 and we have continued to hit the snooze button and roll over for a few more minutes of peaceful sleep since then.

It was a cool fall day in **November 1979** in a country going through a religious and political upheaval when a group of Iranian students attacked and seized the American Embassy in Tehran. This seizure was an outright attack on American soil; it was an attack that held the world's most powerful country hostage and paralyzed a Presidency. The attack on this sovereign U. S. embassy set the stage for events to follow for the next 25 years.

America was still reeling from the aftermath of the Vietnam experience and had a serious threat from the Soviet Union when then, President Carter, had to do something. He chose to conduct a clandestine raid in the desert. The ill-fated mission ended in ruin, but stood as a symbol of America's inability to deal with terrorism.

America's military had been decimated and down sized since the end of the Vietnam War. A poorly trained, poorly equipped and poorly organized military was called on to execute a complex mission that was doomed from the start.

Shortly after the Tehran experience, Americans began to be kidnapped and killed throughout the Middle East. America could do little to protect her citizens living and working abroad. The attacks against US soil continued!

In **April of 1983** a large vehicle packed with high explosives was driven into the US Embassy compound in Beirut. When it explodes, it kills 63 people. The alarm went off again and America hit the Snooze Button once more.

Then just six short months later in **1983** a large truck heavily laden down with over 2500 pounds of TNT smashed through the main gate of the US Marine Corps headquarters in Beirut and 241 US servicemen are killed. America mourns her dead and hit the Snooze Button once more.

Two months later in **December 1983**, another truck loaded with explosives is driven into the US Embassy in Kuwait, and America continues her slumber.

The following year, in **September 1984**, another van was driven into the gate of the US Embassy in Beirut and America slept.

Soon the terrorism spreads to Europe. In **April 1985** a bomb explodes in a restaurant frequented by US soldiers in Madrid.

Then in **August 1985** a Volkswagen loaded with explosives is driven into the main gate of the US Air Force Base at Rhein-Main, 22 are killed and the snooze alarm is buzzing louder and louder as US interests are continually attacked.

Fifty-nine days later in **1985** a cruise ship, the Achille Lauro is hijacked and we watched as an American in a wheelchair is singled out of the passenger list and executed.

The terrorists then shift their tactics to bombing civilian airliners when they bomb TWA Flight 840 in **April of 1986** that killed 4.

And the most tragic bombing, Pan Am Flight 103 over Lockerbie, Scotland in **1988**, killing 259. Clinton treated these terrorist acts as crimes; in fact we are still trying to bring these people to trial. These are acts of war. The wake up alarm is getting louder and louder.

The terrorists decide to bring the fight to America. In **January 1993**, two CIA agents are shot and killed as they enter CIA headquarters in Langley, Virginia.

The following month, **February 1993**, a group of terrorists are arrested after a rented van packed with explosives is driven into the underground parking garage of the World Trade Center in New York City. Six people are killed and over 1000

are injured. Still this is a crime and not an act of war? The Snooze alarm is depressed again.

Then in **November 1995** a car bomb explodes at a US military complex in Riyadh, Saudi Arabia killing seven service men and women.

A few months later in **June of 1996**, another truck bomb explodes only 35 yards from the US military compound in Dhahran, Saudi Arabia. It destroys the Khobar Towers, a US Air Force barracks, killing 19 and injuring over 500. The terrorists are getting braver and smarter as they see that America does not respond decisively.

They move to coordinate their attacks in a simultaneous attack on two US embassies in Kenya and Tanzania. These attacks were planned with precision. They kill 224. America responds with cruise missile attacks and goes back to sleep.

The USS Cole was docked in the port of Aden, Yemen for refueling on 12 **October 2000**, when a small craft pulled along side the ship and exploded killing 17 US Navy Sailors. Attacking a US War Ship is an act of war, but we sent the FBI to investigate the crime and went back to sleep.

And of course you know the events of 11 **September 2001**. Most Americans think this was the first attack against US soil or in America. How wrong they are!

America has been under a constant attack since 1979 and we chose to hit the snooze alarm and roll over and go back to sleep!!!

In the news lately we have seen lots of finger pointing from every high official in government over what they knew and what they didn't know. But if you've read the papers and paid a little attention I think you can see exactly what they knew. You don't have to be in the FBI or CIA or on the National Security Council to see the **pattern that has been developing since 1979**.

I think we have been in a war for the past 25 years and it will continue until we as a people decide enough is enough! America needs to "Get out of Bed" and act decisively now. America has been changed forever. We have to be ready to pay the price and make the sacrifice to ensure our way of life continues. We cannot afford to keep hitting the snooze button again and again and roll over and go back to sleep.

After the attack on Pearl Harbor, Admiral Yamamoto said "... it seems all we have done is awakened a sleeping giant." This is the message we need to disseminate to terrorists around the world.

This is not a political thing to be hashed over in an election year - this is an AMERICAN thing. This is about our Freedom and the Freedom of our children in years to come. Remember, **Freedom is not free**. There was a price to obtain it and a bigger price to maintain it.

**The enemy will not negotiate.
The enemy is bent on killing every American they can –
all of us if possible.
The enemy is seeking world domination.
The enemy will behead you, your children and your neighbors.
You cannot negotiate or ignore a rabid dog you have to put it down.**

Subject: Israel Inconsequential???

Some claims about Israel...

The Middle East has been growing date palms for centuries. The average tree is about 18-20 feet tall and yields about 38 pounds of dates a year.

Israeli date trees are now yielding 400 pounds/year and are short enough to be harvested from the ground or a short ladder.

Israel the 100th smallest country, with less than 1/1000th of the world's population, can lay claim to the following:

The cell phone was developed in Israel by Israelis working in the Israeli branch of Motorola, which has its largest development center in Israel.

Most of the Windows NT and XP operating systems were developed by Microsoft-Israel.

The Pentium MMX Chip technology was designed in Israel at Intel.

Both the Pentium-4 microprocessor and the Centrino processor were entirely designed, developed and produced in Israel.

The Pentium microprocessor in your computer was most likely made in Israel.

Voice mail technology was developed in Israel.

Both Microsoft and Cisco built their only R&D facilities outside the US in Israel.

The technology for the AOL Instant Messenger ICQ was developed in 1996 by four young Israelis.

Israel has the fourth largest air force in the world (after the U.S, Russia and China). In addition to a large variety of other aircraft, Israel's air force has an aerial arsenal of over 250 F-16's. This is the largest fleet of F-16 aircraft outside of the U. S.

Israel's \$100 billion economy is larger than all of its immediate neighbors combined.

Israel has the highest percentage in the world of home computers per capita.

According to industry officials, Israel designed the airline industry's most impenetrable flight security. US officials now look (finally) to Israel for advice on how to handle airborne security threats.

Israel has the highest ratio of university degrees to the population in the world.

Israel produces more scientific papers per capita than any other nation by a large margin - 109 per 10,000 people -- as well as one of the highest per capita rates of patents filed.

In proportion to its population, Israel has the largest number of startup companies in the world. In absolute terms, Israel has the largest number of startup companies of any other country in the world, except the U.S. (3,500 companies mostly in hi-tech).

With more than 3,000 high-tech companies and startups, Israel has the highest concentration of hi-tech companies in the world -- apart from the Silicon Valley, U.S.

Israel is ranked #2 in the world for venture capital funds right behind the U.S.

Outside the United States and Canada, Israel has the largest number of NASDAQ listed companies.

Israel has the highest average living standards in the Middle East.

The per capita income in 2000 was over \$17,500, exceeding that of the UK.

On a per capita basis, Israel has the largest number of biotech startups.

Twenty-four per cent of Israel's workforce holds university degrees, ranking third in the industrialized world, after the United States and Holland and 12 per cent hold advanced degrees.

Israel is the only **liberal democracy** in the Middle East.

In 1984 and 1991, Israel airlifted a total of 22,000 Ethiopian Jews (Operation Solomon) at Risk in Ethiopia, to safety in Israel.

When Golda Meir was elected Prime Minister of Israel in 1969, she became the world's second elected female leader in modern times.

When the U. S. Embassy in Nairobi, Kenya was bombed in 1998, Israeli rescue teams were on the scene within a day -- and saved three victims from the rubble.

Israel has the third highest rate of entrepreneurship -- and the highest rate among women and among people over 55 - in the world.

Relative to its population, Israel is the largest immigrant-absorbing nation on earth. Immigrants come in search of democracy, religious freedom, and economic opportunity. (Hundreds of thousands from the former Soviet Union)

Israel was the first nation in the world to adopt the Kimberly process, an international standard that certifies diamonds as "conflict free."

Israel has the world's second highest per capita of new books.

Israel is the only country in the world that entered the 21st century with a net gain in its number of trees, made more remarkable because this was achieved in an area considered mainly desert.

Israel has more museums per capita than any other country.

Medicine... Israeli scientists developed the first fully computerized, no-radiation, diagnostic instrumentation for breast cancer.

An Israeli company developed a computerized system for ensuring proper administration of medications, thus removing human error from medical treatment. Every year in U. S. hospitals 7,000 patients die from treatment mistakes.

Israel's Given Imaging developed the first ingestible video camera, so small it fits inside a pill. Used to view the small intestine from the inside, cancer and digestive disorders.

Researchers in Israel developed a new device that directly helps the heart pump blood, an innovation with the potential to save lives among those with heart failure. The new device is synchronized with the camera and helps doctors diagnose heart's mechanical operations through a sophisticated system of sensors.

Israel leads the world in the number of scientists and technicians in the workforce, with 145 per 10,000, as opposed to 85 in the U. S., over 70 in Japan, and less than 60 in Germany, with over 25% of its work force employed in technical professions. Israel places first in this category as well.

A new acne treatment developed in Israel, the Clear Light device, produces a high-intensity, ultraviolet-light-free, narrow-band blue light that causes acne bacteria to self-destruct -- all without damaging surrounding skin or tissue.

An Israeli company was the first to develop and install a large-scale solar-powered and fully functional electricity generating plant, in southern California's Mojave Desert.

All the above has been done while engaged in regular wars with an implacable enemy that seeks its destruction, and an economy continuously under strain by having to spend more per capita on its own protection than any other county on earth.

.... AND THE FRENCH AMBASSADOR IN ENGLAND SAYS:

"ISRAEL IS NOTHING BUT A SHITTY LITTLE COUNTRY."

*I found this very interesting.
Everyone has their own opinions, but this is pretty clear.*

Can a good Muslim be a good American?

**Just contemplate this for a moment....
Can a good Muslim be a Good American?
I found this to be very thought provoking.
So, I sent that question to a friend who worked in
Saudi Arabia for 20 years.
The following is his reply:**

Theologically - no. Because his allegiance is to Allah, the moon god of Arabia.

Religiously - no. Because no other religion is accepted by his Allah except Islam (Quran, 2:256)

Scripturally - no. Because his allegiance is to the five pillars of Islam and the Quran (Koran).

Geographically - no. Because his allegiance is to Mecca, to which he turns in prayer five times a day.

Socially - no. Because his allegiance to Islam forbids him to make friends with Christians or Jews.

Politically - no. Because he must submit to the mullah (spiritual leaders), who teach annihilation of Israel and Destruction of America, the great Satan.

Domestically - no. Because he is instructed to marry four women and beat and scourge his wife when she disobeys him (Quran 4:34).

Intellectually - no. Because he cannot accept the American Constitution since it is based on Biblical principles and he believes the Bible to be corrupt.

Philosophically - no. Because Islam, Muhammad, and the Quran do not allow freedom of religion and expression. Democracy and Islam cannot co-exist. Every Muslim government is either dictatorial or autocratic.

Spiritually - no. Because when we declare "one nation under God," the Christian's God is loving and kind, while Allah is NEVER referred to as heavenly father, nor is he ever called love in The Quran's 99 excellent names.

Therefore after much study and deliberationperhaps we should be very suspicious of **ALL MUSLIMS** in this country. **They obviously cannot be both "good" Muslims and good Americans.**

Call it what you wish....it's still the truth. The religious war is bigger than we know or understand.
